Renovation Excellence

From September 2022 to March 2024, the villa underwent an extensive renovation, ensuring attention was given to every detail:

- Damp Protection: Remove plaster from damp walls, inject a special liquid to drain them, and apply a new plaster.
- Structural Enhancements: Washing and new isolation of the roof, isolation against humidity on the first-floor terrace, and decoupling of new tile layers on the pool terrace.
- Open Space Concept: Remove walls on the first floor for an open-space feel and create a large area on the ground floor for yoga classes and seminars.
- Modern Utilities: Renewal of fresh and waste water pipes, new electrical installations, and state-of-the-art air conditioning with smart home control.
- Luxurious Finishes: German-imported aluminium windows with electric shutters, wall-mounted toilets with concealed water tanks, and electrical underfloor heating in all bathrooms.
- Premium Fixtures: New kitchen from Casa Design in Portimão with Siemens appliances, a side-by-side fridge, and new interior doors imported from Germany.
- Smart Home Features: 1 Gbit fibre optics internet, smart home controlled air conditioning, and garden irrigation system.
- Garden Oasis: Renewed garden with new plants, flowers, fruit trees, and a computer-controlled irrigation system.
